About Reserve Bank Of India

What is RBI?

The Reserve Bank of India (RBI) is the central bank that controls, regulates and operates the entire banking system in the country.

RBI is responsible for regulating the nation's financial system and hence ensures financial stability & public confidence in the banking system.

The Bank is headed by the governor who is appointed by the central government.

DID YOU KNOW?

RBI is responsible only for printing the currency notes. Minting of coins is done by the Government of India.

Is RBI a Bank?

RBI is a **Banker's Bank.** Why? Because it **acts as a bank for all the commercial banks in India.** RBI holds their cash reserves and lends them short-term funds.

A normal person cannot open an account in RBI, only Banks can open Current Accounts in RBI.

What is the history of RBI?

When was RBI established?

The Reserve Bank of India was set up on April 1, 1935, in Kolkata. It was, later on, moved to Mumbai in 1937.

The Bank was set up based on the recommendations of the 1926 Royal Commission on Indian Currency and Finance, also known as the Hilton Young Commission.

Originally, RBI was a shareholders' bank (private entity), after nationalization in 1949, it became fully owned by the Government of India.

DID YOU KNOW?

RBI acted as the central bank for two countries, Myanmar and Pakistan till 1947 & 1948 respectively.

What are the functions of RBI?

The Preamble of the Reserve Bank of India describes the basic functions of the Reserve Bank as:

"To regulate the issue of Bank notes and keeping of reserves with a view to securing monetary stability in India and generally to operate the currency and credit system of the country to its advantage; to have a modern monetary policy framework to meet the challenge of an increasingly complex economy, to maintain price stability while keeping in mind the objective of growth."

Role of RBI in the Indian Economy:

1 Monetary Authority

RBI being a monetary authority manages currency and money supply.

2 Regulator & Supervisor of the Financial System

Supervises if the banks and other financial institutions are doing the job assigned to them regarding financial inclusion.

3 Issuer of Currency

Issues, exchanges and destroys currency notes as well as puts into circulation coins minted by the Government of India.

4 Manager of Foreign Exchange

RBI facilitates external trade and payments and promotes the orderly development and maintenance of foreign exchange markets in India.

5 Banker to the Government

RBI sells and purchases government (central & state both) securities on their behalf.

6 Bankers' Bank

As the banker to banks, the Reserve Bank maintains banking accounts of all scheduled banks.

7 Developmental Role

Performs a wide range of promotional functions to support national objectives.

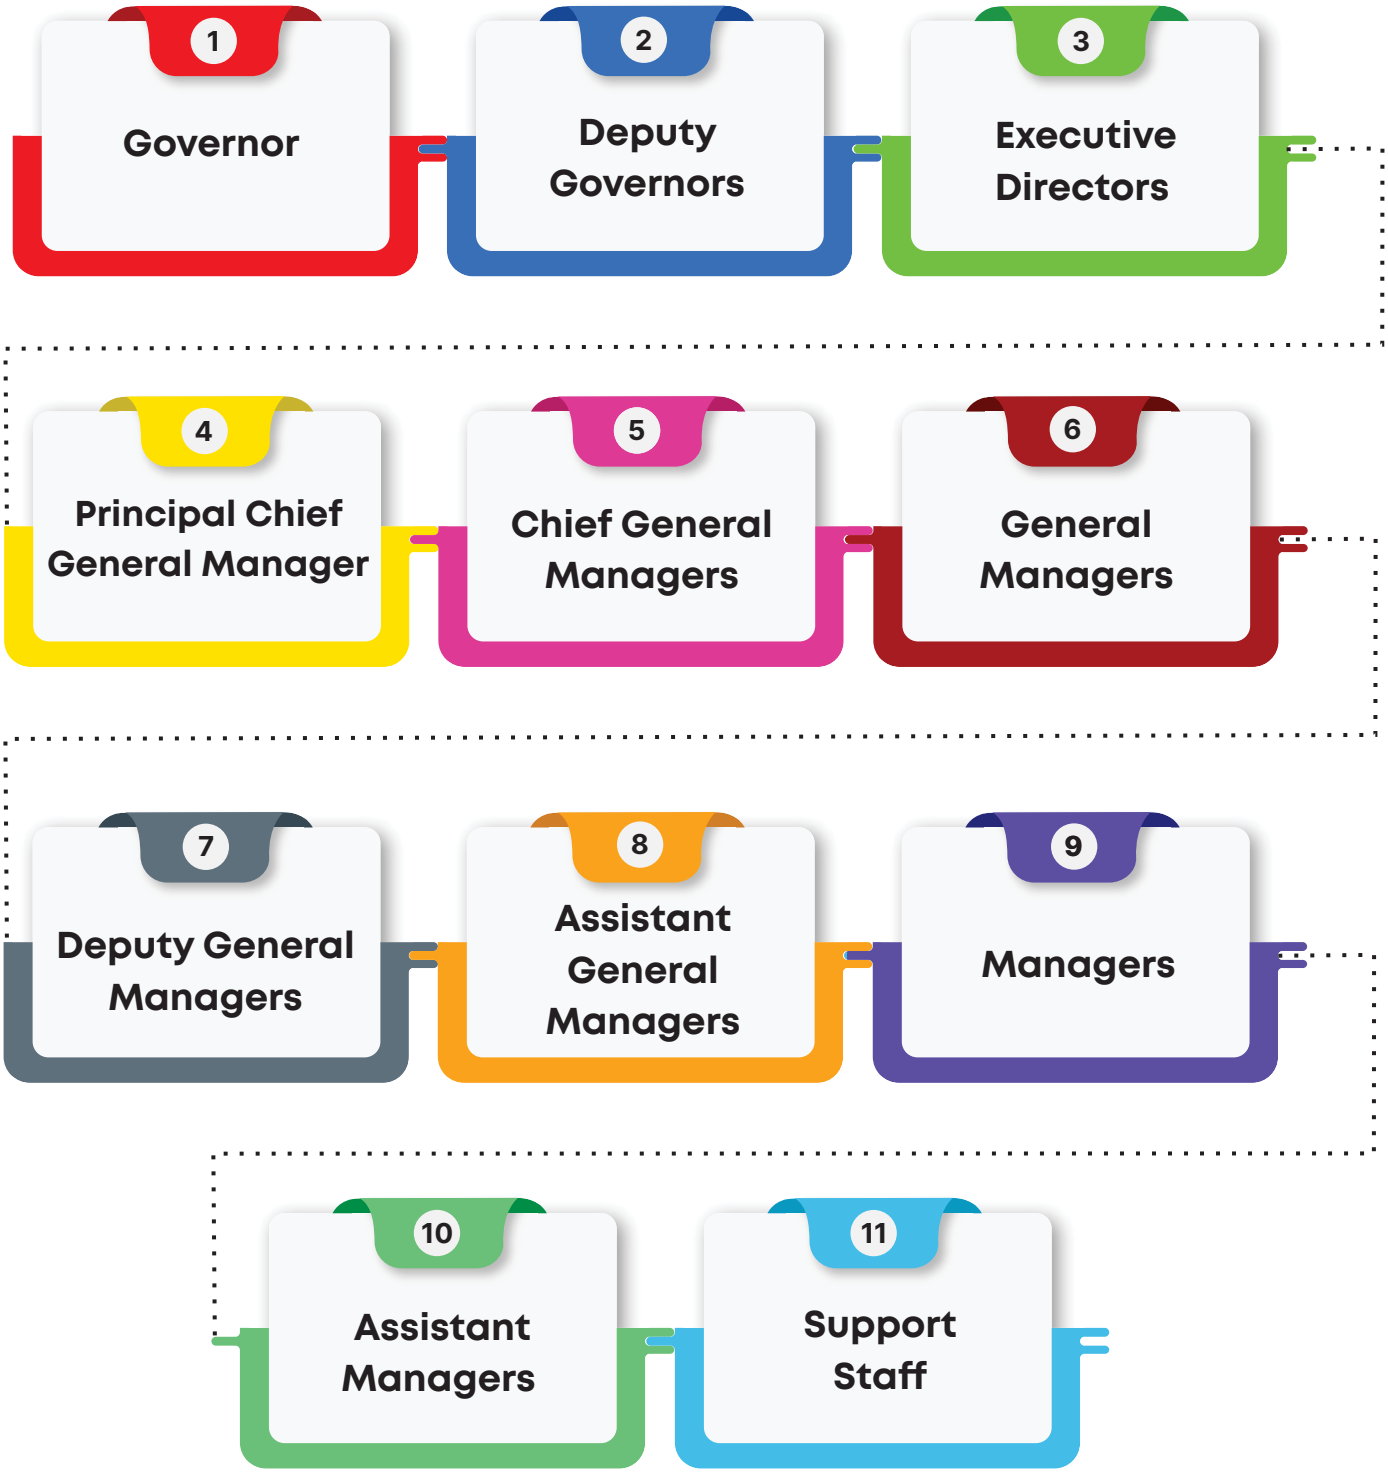

What are the departments in RBI?

There are around 30 departments in RBI.

Major Departments in RBI and their Working in Brief:

- **Department of Economic and Policy Research (DEPR):** It provides research inputs and management information system (MIS) services for policy-related decision-making.
- **Department of Currency Management:** It provides focused attention on the management of currency notes and coins.
- **Department of Government and Bank Accounts(DGBA):** It discharges the core central banking function of being a banker to the government and banker to banks.
- **Department of Statistics and Information Management:** Its major role is collection, processing and analysis of data on banking, corporate and external sectors and modelling and forecasting of important macro-economic indicators.
- **Monetary Policy Department:** Its primary role is to maintain price stability while keeping in mind the objective of growth. Price stability is a necessary precondition to sustainable growth.
- **Foreign Exchange Department:** The objective is to facilitate external trade and payments and promote orderly development and smooth conduct of foreign exchange market in India.
- **FinTech Department:** FinTech is being used to denote the wide array of technological innovations that have a bearing on financial services.
- **Department of Payment and Settlement Systems:** The functions include policy formulation, authorization, regulation, supervision and monitoring of payment and settlement systems.
- **Internal Debt Management Department:** Major role of this department is to manage and provide innovative and practical solutions for the government's debt.
- **Risk Monitoring Department:** Its major role is the implementation of Enterprise-wide Risk Management System in the Reserve Bank.
- **Department of Supervision:** The Department of Supervision carries out the mandate of supervising all scheduled commercial banks (excluding Regional Rural Banks), Local Area Banks, Payments Banks, Small Finance Banks, Credit Information Companies, Primary Urban Cooperative Banks, NBFCs, Asset Reconstruction Companies, Factoring companies and All India Financial Institutions (AIFIs) within the legal framework.

What is the hierarchy in RBI?

Advantages of working with RBI over other sectors

RBI itself says, **"Life with RBI is not just another career. It's a commitment. Commitment to serve the Nation, where your decisions make an impact on the way the economy and the financial sector in the country evolves."** Listed below are the advantages of working at RBI:

- You get an opportunity to work on a **wider canvas of operations,** and you are involved in the formulation of policies having nationwide implications.
- You get to be a member of a team that shapes the financial policies. You work with the government, international organizations and top-level financial minds to contribute to thinking on global best practices.
- You initiate and monitor reforms and changes in India's financial environment and manage an economy in transition. Your job offers the challenge of driving a nation on the move.
- You get an opportunity to interact with some of the brightest minds across sectors of the economy and across the globe. In domestic seminars and conferences, you represent your institution and internationally you represent your country.
- Your everyday job can make a difference to a farmer, a small entrepreneur, an exporter, an industry, a financial entity, or even a common man.
- You do research that induces policy changes.

How is the work-life balance at RBI?

RBI is such a big organization, life would be tough. Right?
No, not at all, rather the life at RBI is-

- **Peaceful:** RBI is a perfect place as far as the work-life balance is concerned as there are no public dealings or sales targets at all and staying in the office for long is a rare instance.
- **Unlike Commercial Banks,** RBI follows 5-days a week policy i.e., working days are from Monday to Friday.
- **More like a Corporate:** The work environment is just awesome.
    - **What are the working hours?**
      Generally, the office timings of RBI are 9 AM to 5 PM.

After clearing the RBI Grade B exam, what will be your designation?

Now, when you are aware of what RBI is and what are its functions, you might be wondering how one can be a part of such a reputed organization. RBI Grade B exam is one such opportunity, once you clear it, you are designated as a Manager in RBI.

Recommended Books

- **Quantitative Aptitude** - This book named **Quantitative Aptitude for CAT** by **Arun Sharma**, is best for building fundamentals in step-by-step manner but it does not adhere to RBI Grade B syllabus alone, so it needs to be complemented with PYQs for comprehensive coverage.

- **Reasoning** - Recommended book for reasoning is **Verbal & Non-Verbal Reasoning** by **RS Agarwal** but since it is relevant for multiple exams, you need to sort out relevant topics, based on PYQs.

- **English Language** - There is no specific book to prepare for the English Language, the more you read the more you learn. However, these 2 books **Objective General English** by **SP Bakshi** and **Word Power – Made Easy** can be referred to align your preparation according to the exam pattern of RBI Grade B and to improve your vocabulary.

- **General Awareness (GA)** - General Awareness is divided into static and current affairs. It is very difficult to define the syllabus of GA, hence you need to have a keen observation of what is going on in your surroundings and is relevant for the exam. How to cover it then? Through **The Hindu** and **PIB** or if you find it difficult making notes out of it, then any good compilation of current affairs (relevant for RBI Grade B exam) is a best way to cover General Awareness. Static GA is to be derived from current affairs and you must Google Search to find out the important static aspects of current news. For eg. Kudankulam nuclear power plant is very often in news, so as a part of static GA, you must be aware where it is located. If for any reason a wildlife sanctuary/national park is in the news, then it automatically becomes important to read about the location of that wildlife sanctuary/national park & what it is famous for.

What are the other sources?

- Books for Quant & Reasoning are only for concept building. The best way to prepare these subjects is to **practice as many questions** and attempt as many mock tests as you can.
- For English, develop a decent vocabulary through editorial section of The Hindu/The Indian Express and reading Yojana magazine (will help in current affairs as well)

Recommended Books

- **Books for Management-**
  - Principles & Practice of Management by LM Prasad
  - Organizational Behaviour by LM Prasad and Organizational Behaviour By Stephen P Robins (Indian Version edited by Niharika Bohra)
  - Business Ethics & Corporate Governance by BN Ghosh - For Ethics & Corporate Governance
- **Books for Finance-**
  - Principles of Practices of Banking by Macmillan Education (Read only Module A & C)
  - Bank Financial Management by Macmillan Education (Read only Module A & B)
  - Indian Economy by Ramesh Singh (Mainly for Inflation & Union Budget)
- **Books for Economic & Social Issues-**
  - Indian Economy by Ramesh Singh (Read only those chapters that are mentioned in the syllabus)
  - Social Problems in India by Ram Ahuja - (Requires selective study as mainly current oriented questions are asked)
- **Books for Descriptive English -**
  - There are no specific books that can be suggested for Descriptive English. To improve your writing skills, you can start reading PIB (will help in collecting good points for essay), Yojana magazine will help in English as well as current affairs and editorials from The Hindu or Indian Express (will help in building command over language).

What is Psychometric Test:

From 2021 onwards, RBI has introduced a transition stage between the Phase 2 result and Interview – Psychometric Test. After Phase 2, one needs to clear this test, which is qualifying in nature i.e. no marks are allotted for this.

- **What is it all about?**

  A psychometric test is basically a test of two things –
  - Test of personality traits
  - Test of cognitive ability

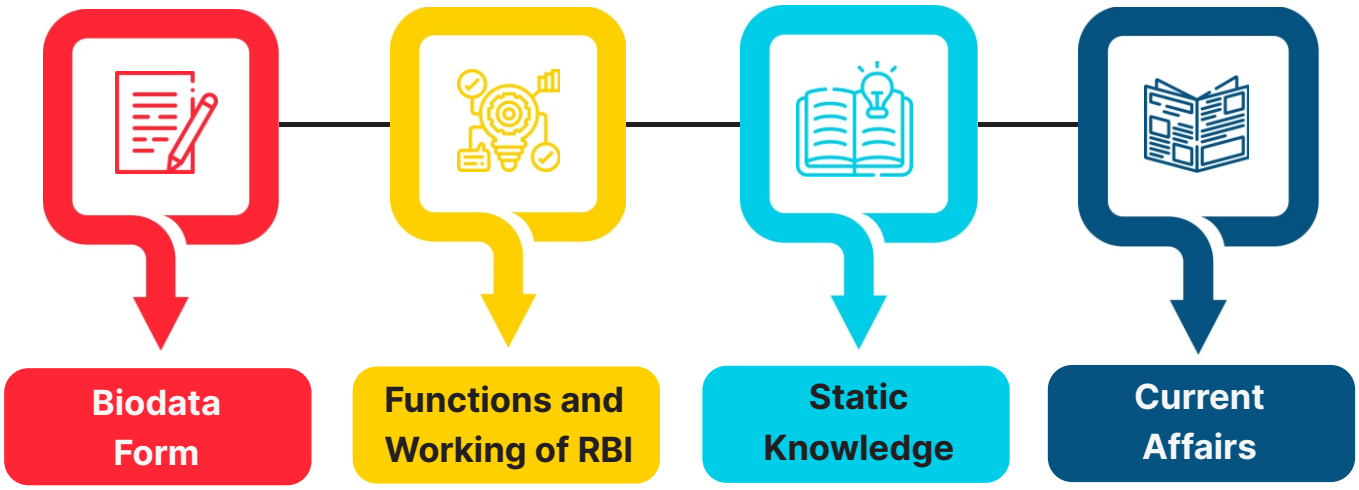

Since, majority of your cognitive ability has already been tested in the previous two stages, personality traits have a lot more weightage in psychometric assessment.

Traits that are tested through a Psychometric test include –

- **Cultural Fitment** – Will you be able to fit in the highly diverse work culture of an organization like RBI.
- **Learnability** – are you open to learn & grow?
- **Flexibility & Adaptability** – This refers to your attitude towards the unexpected changes.
- **Value System** – How strongly you maintain your ethics and integrity.
- **Response under Stress** – How do you behave under intense situations.
- **Your Motivational Process** – What motivates you? Is it the aura of working with RBI or the feeling of serving your nation?
- **Emotional Capabilities** – It is a test of your emotional intelligence; EQ is equally important as IQ.

Resources for interview

- **Where is the interview held?**
  The RBI Grade B interviews are held at any of the 4 zonal offices of RBI i.e. Mumbai, New Delhi, Chennai and Kolkata.
- **Who takes the interview?**
  The panel for the interview of RBI Grade B is decided by the RBI Services Board. The interview panel is headed by a Chairperson who is mostly of the Executive Director rank. The other 3–4 members in the panel are of CGM/Regional Director level. Interview panel of the RBI, therefore, consists of very senior bank officials.
- **How to prepare?**
  This is the final and most critical stage of becoming a Manager in RBI. The candidate selected for the interview is well-versed with written exam, but at this stage, people go clueless, so we have come up with these **4 pillars** to help you clear the interview like a pro:

- **Biodata form –**
  Generally, information asked in biodata form include-
  - Family background
  - Educational background
  - Work Experience
  - Your hobbies
  - The best way to cover major aspects of your biodata form is to prepare around 100 questions out of it which should cover all the information that you have provided. You can discuss these questions and their answers with family and friends to get different perspectives. In short, you should be thorough with the information that you have provided in the biodata form.

- **Functions and Working of RBI –**
  You must know about the organization you want to be a part of. To cover these questions, you may refer to **About Us** section of Reserve Bank's website– https://www.rbi.org.in/

- **Static Knowledge –**
  A few questions can be asked from static portion of your syllabus to test your basic understanding of Indian Economy and Financial system. These can be answered by reading the below topics:

- Inflation
- Indian Economy & Reforms
- Monetary Policy and Fiscal Policy
- Risk Management / Non-performing Assets
- FinTech / Payment and Settlement system
- Financial Inclusion
- Corporate Governance

- **Current Affairs –** Current Affairs is something that will always come to your rescue. You have been referring to it even before the Phase 1 exam. However, for the interview, you should restrict your preparation to the events and happenings which are related to finance/economy or to be precise- **News relevant to RBI**. A few examples include:
  - RBI Notifications (mainly regulations)
  - RBI Annual Report
  - Financial Stability Report (FSR)
  - Report on Trends & Progress of Banking System in India
  - Economic Survey and Union Budget
  - News Papers – Live Mint and Economic Times

    - Covering the above-mentioned resources 4 to 6 months prior to the interview date will be sufficient. It is not required to remember everything by heart, but you should have a fair idea of these reports & surveys, as well as the landmark changes brought about by RBI.

Our 6-Step Formula to Become an RBI Manager

What is the 6-Step Formula?

Set a clear goal #1

Always remember that when goals are vague, outcomes are vague. So does it mean that you must set only 1 and clear goal of clearing the RBI Grade B examination? You may. Nothing wrong with it. We, however, recommend following a Plan A and Plan B approach. And no, Plan B here does not mean a backup career option! What it means is that you should design your Plan A and Plan B exams in such a manner that 1) the preparation of your Plan A exam/s 'must' automatically lead to atleast 80% preparation of Plan B exam/s and 2) when you are devoting time to study for Plan B exam/s, it must automatically strengthen your preparation for Plan A exam/s.
For example – Let's say your Plan A exam is to crack the RBI Grade B exam, what should be your Plan B? The most ideal Plan B will be the SEBI Grade A exam. How? Because it checks both points as explained above – preparation of RBI Grade B automatically leads to the preparation of 80% syllabus of SEBI Grade A and when you are devoting time to study anything for SEBI Grade A, it is actually strengthening your preparation for RBI Grade B as well.

#2 Understand the exam

The **syllabus** and **previous year questions** are like the 2 headlights of your car of preparation. You miss one of these and your car will meet with an accident, let me guarantee you this right here! The biggest blunder aspirants commit is that they do not define the scope of the syllabus of the examination and prepare under the impression that anything and everything can be asked in the examination which is even remotely related to the syllabus!

Hell no! This is NOT the case. **Download and print a copy of the syllabus and then do the same for previous year questions.** Go through the syllabus atleast 10 times and then go through the previous year questions (year wise) and see for yourself what are the important topics and in what depth they need to be studied for the examination. Believe me, more than 90% of the so-called sincere aspirants do not do this.

#3 Shortlist Resources

Based on step 2, now is the time to shortlist your study sources. Once you prepare a list of the resources you will follow, DO NOT get swayed by new material that keeps flooding the market through social media platforms! Keep your head down and focus on completing your study sources. Yes, once you are done with your sources, you can move to a secondary source but not before that!

#4 Design a Time Table

This is a very important step – you must design a time table for yourself. This time table is for 'you' and 'you' alone. Do not compare your timetable with others, some like studying early in the morning, some like to burn the midnight oil, some can sit at a stretch for 6 hours, some study for 2 hours and take a break and then study again. Some study on all 7 days, some study for 5 days and take a 2-day break. Whatever! The point is to have a timetable that 'works' for 'you'. It is not meant to earn a shower of praises from your parents, friends, or peers!

Develop Consistency #5

Ah consistency! The ever-elusive thing! The secret to developing consistency is to make 'micro easy targets'. How? Let's compare 2 situations. Student A makes a plan that he will study 8 hours every day starting tomorrow and sets a goal for himself for the next day – cover 50 pages of current affairs magazine, 20 pages of motivation theories from a book, 50 questions of ratio & proportion and write 1 essay. He starts his day full of energy but towards the end of the day finds himself in quite an uncomfortable position realizing that only 50% of the target has been covered. He cannot sleep comfortably that night and gets up the next morning tired and frustrated. Now he has to complete the pending tasks of Day 1 as well as cover whatever he decided for Day 2 as well! Quite an uphill task, don't you think?

On the other hand, Student B makes a plan that he will also study 8 hours a day and sets a goal of completing 20 pages of current affairs magazine, 10 pages of motivation theories and 1 essay. Now, this student will complete his target ahead of schedule and having done that feel elated, joyful and full of confidence! This will lead to a good night's sleep and hence even higher energy for the next day!

This is how you make 'micro' and 'easy' targets and achieve them daily and move ahead with consistency.

Develop Faith #6

Always think from your mind and feel from your heart. If you reverse this sentence, you will get trapped in 'emotions'. Being emotional isn't bad at all, its good! Getting trapped in emotions is what is bad! Once you complete steps 1-5, you will start to **develop faith in yourself.** Have a little **trust in your mentors** as well, talk to them, mail them, get in touch and see how they can help you!

Mr. Vignesh C

RBI Grade B 2021 ★★★★★

Thankyou for all the support I have received from EduTap for RBI Grade B. EduTap faculties and team have been greatly helpful by providing quality content. If there was one thing I was really sure of was that for those topics which I refer EduTap I don't have do anything more. It's the dedication and vigour to constantly update and upgrade as per the requirements and adapt to the dynamism of the exams that places EduTap at the helm.

Who **We Are**

It was the year 2016 when Mr. Anchit Garg and Mr. Deepak Garg, our co-founders, came up with the vision to provide a quality content and a much-needed mentorship to the students who are preparing for regulatory bodies' exams. With this vision, they also had a crystal clear **WHY** of that vision; **"to create a nurturing ecosystem for the aspirants, so that they can feel safe, guided and mentored".** As of this moment in time, every member of our team looks back at the initial reason for starting EduTap and appreciates that we are living up to our creed - because every other aspect of what we do helps us achieve our ultimate goal. Yes, this is not achievable in its entirety but, the point is we try. The point is we aspire. The point is we take the above statement as our compass that guides our thoughts, behaviour and actions. The whole point is we feel inspired to come to work and feel fulfilled at the end of the day that we did all we could, with everything we got to 'try' and achieve the ideal. We at EduTap live by this value statement. We strive for this ideal. We work towards this aim. Everyday. Each day.

What Makes Us Different?

Our student-centric services, we do not deny the fact that content is in abundance in the market, but we at EduTap promise (read it pledge) to give you the best services. We very patiently acknowledge the problems of the aspirants (even if they are not our paid subscribers) and try to resolve them to the maximum possible extent.
