RBI Grade B 2021 Reasoning - Recollected Questions

Reasoning

Direction (Q1-Q5): Study the following information carefully and answer the below questions.

Eight persons- P, Q, R, S, T, U, V, and W are born in different years but not necessarily in the same order. The ages of each person are calculated from the base year 2020. Note: If it is given that A's age is equal to the last two digits of the birth year of B, then the age of A will be in any sequence. For example: If B is born in 1992, A's age is equal to the last two digits of the birth year of B, then the age of A may be either 29 or 92 years. None of the persons were born before 1970 and after 2015. W was born in 2000. Only three persons are born between W and T. The age of T is the last two digits of the birth year of V. The difference between the age of V and W is five years. V is born two persons after the one whose age is 20 years. Q is born two persons before the one who is born immediately after S. Only two persons are born between S and the one whose age is 18 years. The sum of the ages of W and R is one less than the age of S. The last two digits of the birth year of a person who is born adjacent to Q is equal to the age of the person who is born immediately after W. The age difference between R and the one whose age is 20 is the same as between Q and the one who is born adjacent to Q. The age difference between V and U is one less than the age difference between Q and S. The number of persons born between P and R is the same as between S and T. The age of P is equal to the last two digits of the birth year of the person who was born two persons before P. All person's ages are equal to the last two digits of the birth year of some other persons except V and Q.

Q1. What is the age of P?

A. 19
B. 27
C. 28
D. 07
E. 38

Q2. Who among the following person was born immediately before V?

A. U
B. The one who was born immediately after W
C. Q
D. T
E. The one who was born two persons after S

Q3. What is the sum of the ages of V, U, and T?

A. 95
B. 83
C. 68
D. 72
E. 75

Q4. As many persons are born before Q is the same as after__?

A. The one who was born in 2005
B. The one who was born in 2000
C. The one who was born in 2013
D. S
E. P

Q5. In which of the following year was Q born?

A. 1970
B. 1972
C. 1975
D. 1985
E. 1993

Direction (Q6-Q10): Study the following information carefully and answer the below given questions.

Numbers and words arrangement machine when given an input line of numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement.

Input: 53218 crew kept 32174 73628 mode form 82746 23684 very
Step I: 23684 crew 32174 form 53218 kept 73628 mode 82746 very
Step II: 11842 drew 16087 gorm 26609 lept 36814 node 41373 wery
Step III: 952 dsew 697 gprm 329 lfpt 544 npde 423 wfry
Step IV: 16 dsfw 22 gpsm 14 lfqt 13 npee 09 wfsy
Step V: 5 dsfx 0 gpsn 3 lfqu 2 npef 9 wfsz
Step V is the last step
Input: Line 35422 Turn 87342 63926 Wake Sand 48524 73842 Pure

Q6. What is the position of "921" from the right end in step III?

A. Second
B. Third
C. Fourth
D. Fifth
E. Sixth

Q7. Which of the following elements is fourth from the right end in step IV?

A. 13
B. 12
C. 15
D. 14
E. 16

Q8. What is the output of "48524"?

A. 1
B. 3
C. 5
D. 2
E. 8

Q9. What is the sum of the numbers in Step V?

A. 21
B. 22
C. 17
D. 18
E. 20

Q10. How many elements are between "521" and "Uvrn" in step III?

A. Eight
B. Seven
C. Six
D. Five
E. Four

Direction (Q11-Q12): In each group of questions below are three conclusions followed by five statements. You have to choose the correct set of statements that logically satisfy the given conclusion:

Q11. Conclusion:

I. Some Red is Green
II. Some Black is not a Blue
III. All Green being Red is not a possibility

Statement:

I. Some Red is Blue; All Blue is Black; No Black is Green.
II. Only a few Red is Blue; All Blue is Green; Only Green is Black.
III. Only Red is Black; Some Red is Blue; No Blue is Green.
IV. Only Green is Black; All Red is Green; No Green is Blue.
V. Some Black is Blue; No Blue is Green; Only Green is Red.

A. Both I and II follow
B. Both II and IV follow
C. None Follows
D. All Follows
E. Both III and V follows

Q.12. Conclusion:

I. All Mobile being Laptop is not a possibility

II. Some Speaker being Laptop is a possibility

III. Some speakers are charger

Statement:

I. Only a few mobiles are Laptop; No Laptop is Charger; All Charger is Speaker

II. Only a few Speaker is Charger; Some Charger is Mobile; All Mobile is Laptop

III. No Speaker is Charger; All Charger is Mobile; No Mobile is Laptop

IV. No speaker is Laptop; All Laptop is Charger; No Charger is Mobile

V. Some Charger is Mobile; All Mobile is Laptop; No Laptop is Speaker

A. Both I and II follow

B. Both II and IV follows

C. None Follows

D. All Follows

E. Both III and V follows

Direction (Q13-Q17): Study the following information carefully and answer the below given questions.

Twelve persons- O, P, Q, R, S, T, U, V, W, X, Y, and Z are sitting in two parallel rows. Each row contains six persons facing each other. The persons who are sitting in row1 faces south and those who are sitting in row 2 facing north but not necessarily in the same order. They are having a different number of chocolates. Note: The persons who are sitting in row-1 having an even number of chocolates and those who are sitting in row-2 having an odd number of chocolates. Only three persons are sitting between R and the one who has 15 chocolates who sits to the right of R. S sits opposite to the one who sits immediately left of the one who has 15 chocolates. X sits second to the right of the one who sits adjacent to the person having 11 chocolates. P and X are sitting diagonally opposite to each other. P has only one neighbor who has 10 chocolates. The number of people sitting between R and X is the same as between the one who has 22 chocolates and the one who has 4 chocolates. The one who has 22 chocolates sits immediately right of T. T does not sit adjacent to S. O sits opposite to the one who sits immediately left of Z who sits third to the right of R. S sits adjacent to O. W sits immediate left of Q who has an odd number of chocolates. Y has 6 chocolates and does not sit at the end of the row. S has the chocolates twice that of V who has an even number of chocolates. Z has one chocolate more than S. The difference between the number of chocolates of P and T is equal to the number of chocolates of O. W has ten chocolates more than Z and two chocolates less than R. None of them has the same number of chocolates. X has the prime number of chocolates more than U but less than R.

Conditions:

They are playing the dice game. Two persons are rolling the dice at the same time.

I) If two persons are getting an even number, then their chocolate will be added to the person who sits second to the left of them.

II) If two persons are getting an odd number, then their chocolates will be subtracted from the person who sits immediate right from them

III) If one person gets an even number and another one gets an odd number then their chocolates will be twice.

Q13. The person who sits second to the right of Q and third to the left of O are rolling the dice, one of them gets number 5 and another one gets the number which is equal to the number of chocolates of V. Then how many chocolates does the person have who sits third to the left of O?

A. 30
B. 10
C. 8
D. 22
E. 24

Q14. If the persons who are sitting in the right corner of each row are rolling the dice, they get an even number. Then what is the sum of the chocolate of the person who sits second to the left of each of them?

A. 80
B. 60
C. 75
D. 65
E. 70

Q15. What is the sum of the chocolate of O, S, Q, and W?

A. 55
B. 32
C. 50
D. 35
E. 40

Q16. If the persons who are sitting second from the left end of each row are rolling the dice, both are getting an odd number, then what is the difference between the chocolate of the person who sits immediately to the right of each of them?

A. 7
B. 6
C. 8
D. 9
E. 5

Q17. Who among the following persons sits second to the right of the one who sits opposite to the person who has twice of the chocolates of Y?

A. The one who sits immediate left of W
B. The one who has 19 chocolates
C. The one who has 17 chocolates
D. The one who has 15 chocolates
E. The one who sits second to the right of R

Direction (Q18-Q23): Study the following information carefully and answer the below given questions.

Three married couples- A, B, C, D, E, and F are sitting at the circular table facing the centre but not necessarily in the same order. They are of different ages. The couples are not sitting together. D sits second to the left of the one who sits opposite to a person whose age is 40. Only one person sits between D and the one whose age is 32. E sits immediately to the right of the one who is the wife of A. E is a female member who sits opposite to the one who sits second to the left of the one whose age is 32. F sits immediately to the right of the one who sits second to the right of A. The husband's age is more than the wife's age. F is not a spouse of C. There is a five year age difference between B and B's wife. C does not sit adjacent to A's spouse. A's age is twice that of E's age. C's spouse's age is 29. There is a 10 year age difference between C and B. No one's age is more than fifty.

Q18. What is the age of D's spouse (in years)?

A. 35
B. 29
C. 20
D. 40
E. None of the above

Q19. Who among the following person sits opposite to B?

A. A
B. The one who sits immediate left of D
C. D's spouse
D. The one whose age is 40
E. The one who sits second to the right of A

Q20. What is the sum of the age of D and A's spouse?

A. 65
B. 61
C. 70
D. 73
E. 75

Q21. Four of the following are alike in a certain way. Which of the following does not belong to the group?

A. C
B. A
C. The one who sits immediate right of C
D. The one who sits second to the right of B
E. The one who sits immediate left of D

Q22. Which of the following statement(s) is/are true?
I. A's age is 40.
II. B is the spouse of E.
III. Only one person sits between D and F when counted to the right of D.

A. Both I and III
B. Only III
C. Both I and II
D. Only II
E. All I, II, and III

Direction (Q23-Q25): Each of the questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question.

Q23. Six persons-L, M, N, O, P and Q are sitting in a row but not necessarily in the same order. Who among the following person sits second from the left end of the row? (facing south)

Statement 1: Q sits third to the left of the one who sits second to the right of L. Only two persons are sitting between Q and M. Only one person sits between L and N.
Statement 2: Only two persons are sitting between M and Q. M sits immediately to the right of the one who sits second to the left of O who sits either left or right end.

A. Only Statement I is sufficient
B. Only Statement II is sufficient
C. Either statement I or statement II is sufficient
D. Neither statement I nor statement II is sufficient
E. Both statements I and II sufficient

Q24. There are six boxes- A, B, C, D, E, and F are kept one above another in a stack but not necessarily in the same order. How many boxes are kept above E?

Statement 1: Box F is kept two boxes below the box which is kept three boxes above A. Only two boxes are kept between F and C which is kept below A. Box B is kept immediately above Box D, neither of the boxes kept adjacent to C.
Statement 2: Box E is kept three boxes below the box which is kept immediately above F. Box E is kept neither top nor bottom of the stack. Only two boxes are kept between C and F. Neither B nor D is kept below F.

A. Only Statement I is sufficient
B. Only Statement II is sufficient

C. Either statement I or statement II is sufficient
D. Neither statement I nor statement II is sufficient
E. Both statements I and II are sufficient

Q25. What is the direction of point L with respect to point X?
Statement 1: Point S is north of Point M which is west of Point G. Point P is east of Point X. Point L is North of point V.
Statement 2: Point V is exactly in the middle of Point M and G. Point L is east of Point S. Point X is neither south nor south-east of Point M. Point P is south of point G.
A. Only Statement I is sufficient
B. Only Statement II is sufficient
C. Either statement I or statement II is sufficient
D. Neither statement I nor statement II is sufficient
E. Both statements I and II are sufficient

Q26. In a certain code language, "Program is super" is coded as "217 693 472", "Super Art" is coded as "693 238", "He learns program" is coded as "217 479 624", then what is the sum of the code for "Program Art"?
A. 696
B. 689
C. 1103
D. 910
E. 455

Q27. T is 15m north of M. H is 9m south G which is 15m east of M.L is 20 m west of H. V is north of O and 5m east of S which is 5m north of L. O is west of H. Then what is direction and distance of V with respect to T?
A. 14m, north
B. 19m, south
C. 19m, north
D. 24m, south
E. 24m, north

Q28. In which of the following more than two meaningful words can be formed by using the following letters?
I. A, S, T, E
II. T, D, N, E
III. P, L, S, O
A. Only I
B. Only II
C. Both I and II
D. Only III
E. All I, II, and III

Q.29. If the second letter of all the words from the right end are taken and changed to the next second successive letter in alphabetical order, which option/options among the given ones have more than one vowel in all the words?

I. Bank, Blow, Cash

II. Draw, Ford, Hurt

III. Mass, Mode, Once

A. Only I
B. Both II and III
C. Only III
D. All I, II, and III
E. None

Direction (Q30-Q32): Answer the questions based on the information given below.

Certain persons are sitting in a straight line and all of them are facing towards the north. Not more than 23 persons are there in the row. D sits fourth from the right end and is fifth to the right of E. Only two persons sit between E and I. J sits sixth to the left of I and is second to the right of F. The number of persons between I and E is one less than the number of persons between H and F. K sits third to the left of H and the number of persons to the left of K is one less than the number of persons to the right of G who doesn't sit adjacent to D.

Q30. How many persons are there in the row?

A. 23
B. 22
C. 20
D. 21
E. 19

Q31. Who among the following person sits second to the left of D?

A. G
B. E
C. I
D. J
E. Unknown

Q32. How many persons are there between H and E?

A. Six
B. Eight
C. Ten
D. Four
E. None

Direction (Q33-Q35): Study the following information carefully and answer the below questions.

Six persons- L, M, N, O, P, and Q have different heights. Only one person is between the one whose height is 159 cm and L. The height of P is 156 cm. M is taller than L. The number of people between N and L is the same as between L and Q. The number of persons who are taller than N are the same as shorter than P. The height of L is 10 cm more than Q whose height is 3cm more than P. No one height is more than 181cm.

Q33. What may be the height of N, If the height of N is divisible by five?

A. 175 cm
B. 165 cm
C. 160 cm
D. 185 cm
E. None of the above.

Q34. How many people are taller than L?

A. One
B. Two
C. Three
D. Four
E. None

Q35. What is the average height of N, P, and Q?

A. 163 cm
B. 151 cm
C. 161.22 cm
D. 163.33 cm
E. None of the above

Q36. In which of the following expressions does the expression 'I > D' and 'A ≤ G' definitely hold true?

A. A ≥ I ≥ G = K > S > D
B. A ≤ D ≥ M= F ≤ G < I
C. I ≥ C> Q ≥ A = G ≥ D
D. G ≥ D = A < B ≤ S ≤ I
E. D ≥ E = G ≥ W = A < I

Q37. Which of the following expressions will definitely be true if the expressions 'L > R' and 'M ≤ N' are true?

A. K > M < S ≤ N < R ≥ D ≤ L
B. K = M > S ≥ N = R ≤ D < L
C. K > M ≥ S = N ≤ R ≤ D ≤L
D. K ≥ M ≥ S ≥N < R < D ≤ L
E. None of these

Q38. Which of the following expressions does the expression 'B ≤ H' and 'A > G' definitely hold true?

A. A = B < F ≥ H = K > G > D
B. D > A = G ≥ B = F ≤ G < H
C. A < O > G < H = H ≥ S ≥ B
D. G = U ≤ B = E ≤ H = O < A
E. None of the these

Direction (Q39-Q43): Study the following information carefully and answer the below given questions.

Eight persons- A, B, C, D, E, F, G, and H are sitting at the circular table facing the centre but not necessarily in the same order. They all have different ages, and the age of all the persons is less than 50. G sits third to the right of the one who sits immediately left of the one whose age is 36. Two persons are sitting between G and F. D sits adjacent to the one who sits second to the right of A. A sits immediate left of F. The one whose age is 20 sits opposite to the one who sits second to the left of E. Neither F nor G is 20 years old. H sits third to the left of the one whose age is 15 years. Neither E nor A is 15 years old. B sits second to the left of C. The age of D is twice the age of the one who sits immediately to the right of G. The age difference between E and D is the same as between D and A. The age of G is five years more than the one who sits immediately to the left of G. The age of F is one year less than the one who sits immediately to the right of H. One of the persons sitting at the table is 22 years old.

Q39. Which of the following combinations is true?

A. F-36
B. E-15
C. D-30
D. C-20
E. B-22

Q40. How many persons are sitting between D and E?

A. One
B. Two
C. Three
D. Four
E. Either b or d

Q41. Who among the following person sits opposite to the one whose age is 29?

A. The one who sits second to the left of D
B. C
C. A
D. The one whose age is 35
E. The one whose age is 15

Q42. If G is related to 30 and A is related to 22 in a certain way. Then who among the following is related to 15?

A. E
B. The one who sits opposite to F
C. C
D. The one who sits third to the left of D
E. None of the above

Q43. Four of the following five are alike in a certain way thus forming a group. Find the one which does not belong to the group?

A. E
B. The one who sits second to the right of C
C. The one who sits immediate right of H
D. The one who sits immediate left of D
E. A

Direction (Q44-Q46): Each of the following questions consists of a statement followed by two arguments I and II.

Q44. Statement: Should the system of offering jobs only to the wards of government employees be introduced in all government offices in India?

Arguments:
I. No. It denies opportunity to many deserving individuals and the government may stand to lose in the long run.
II. No. It is against the principle of equality. Does the government not owe its responsibility to all its citizens?

A. if only argument I is strong
B. if only argument II is strong
C. if either I or II is strong
D. if neither I nor II is strong
E. if both I and II are strong.

Q45. Statement: Does India need so many plans for development?

Arguments:
I. Yes. Nothing can be achieved without proper planning.
II. No. Too much time, money and energy are wasted on planning.

A. if only argument I is strong
B. if only argument II is strong
C. if either I or II is strong
D. if neither I nor II is strong
E. if both I and II are strong.

Q46. Statement: Should those who receive dowry, despite the law prohibiting it, be punished?
Arguments:
I. Yes. Those who violate the law, must be punished.
II. No. The Dowry system has been firmly rooted in the society since time immemorial.
A. if only argument I is strong
B. if only argument II is strong
C. if either I or II is strong
D. if neither I nor II is strong
E. if both I and II are strong.

Direction (Q47-Q48): In each question below is given a statement followed by two courses of action numbered I and II. You have to assume everything in the statement to be true and on the basis of the information given in the statement, decide which of the suggested courses of action logically follow(s) for pursuing. Given answer-
Q47. Statement: The Committee has criticized the Institute for its failure to implement a dozen of regular programs despite an increase in the staff strength and not drawing up a firm action plan for studies and research.
Courses of action
I. The board objectives of the Institute should be redefined to implement a practical action plan.
II. The Institute should give a report on reasons for not having implemented the planned programmers.
A. If only I follow;
B. If only II follows,
C. If either I or II follows;
D. If neither I nor II follows
E. If both I and II follow.

Q48. Statement: Majority of the students in many schools do not pass in the final examination.
Courses of action
I. These schools should be closed down as these have become unproductive.
II. The teachers of these schools should immediately be retrenched.
A. If only I follow;
B. If only II follows,
C. If either I or II follows;
D. If neither I nor II follows
E. If both I and II follow.

Direction (Q49-Q52): In each question below is given a statement followed by two assumptions numbered I and II. An assumption is something supposed or taken for granted. You have to consider the statement and the following assumptions and decide which of the assumptions is implicit in the statement.

Q49. Statement: In Bombay, railway trains are indispensable for people in the suburbs to reach their places of work on time.

Assumptions:

I. Railway trains are the only mode of transport available in the suburbs of Bombay.

II. Only railway trains run punctually.

A. If only assumption I is implicit
B. If only assumption II is implicit
C. If either I or II is implicit
D. If neither I nor II is implicit
E. If both I and II are implicit

Q50. Statements: It is not always true that only a brilliant person can qualify the written examination for Probationary Officers (Po's).

Assumptions

I. A Brilliant person can qualify the written examination for PO's.

II. A person who is not brilliant can also qualify the written examination for Po's.

A. If only assumption I is implicit
B. If only assumption II is implicit
C. If either I or II is implicit
D. If neither I nor II is implicit
E. If both I and II are implicit

Q51. Statement: "If it does not rain throughout this month, most farmers would be in trouble this year."

Assumptions:

I. Timely rain is essential for farming.

II. Most farmers are generally dependent on rain.

A. If only assumption I is implicit.
B. If only assumption II is implicit.
C. If either I or II is implicit.
D. If neither I nor II is implicit.
E. If both I and II are implicit.

Q52. Statement: If the city bus which runs between Ram Nagar and Sant Colony is extended to Vasant Vihar, it will be convenient. — Appeal of residents of Ram Nagar to the city bus company.

Assumptions:

I. The convenience of the city bus company is much more important than the needs of the consumers.

II. The city bus company is indifferent to the aspirations of the residents of Sant Colony.

A. If only assumption I is implicit.
B. If only assumption II is implicit.
C. If either I or II is implicit.
D. If neither I nor II is implicit.
E. If both I and II are implicit.

Direction (Q53-Q55): In each question below is given a statement followed by two conclusions numbered I and II. You have to assume everything in the statement to be true, even if they are at variance with the commonly known facts. Then consider the two conclusions together ignoring the commonly known facts and decide which of them logically follows beyond a reasonable doubt from the information given in the statement.

Q53. Statement: India is seeking partnership with Germany in aeronautical engineering and space exploration. Earlier, India entered into partnership with some other countries in aeronautical engineering.

Conclusion:

I. It is high time for a joint venture between Germany and India, because Germany is developing State of-the-art technologies in aeronautical engineering.

II. Both India and Germany, have core competence in the given area.

A. If only conclusion I follows.
B. If only conclusion II follows.
C. If either I or II follows.
D. If neither I nor II follows.
E. If both I and II follow.

Q54. Statement: Nowadays a number of telecommunication companies are providing better services in the market to compete with foreign companies.

Conclusion:

I. They want India to become number one in the field of telecommunication. At the same time, they want to fetch more and more money from other countries.

II. Companies want to increase customers and become no. I position.

A. If only conclusion I follows.
B. If only conclusion II follows.
C. If either I or II follows.
D. If neither I nor II follows.
E. If both I and II follow.

Q55. Statement: Unity is hindered by gaps among the people on the basis of economy, culture, religion and language.

Conclusion:

I. Unity is a must for the Country.

II. Any country where there are such gaps will find it difficult to stay united.

A. If only conclusion I follows.
B. If only conclusion II follows.
C. If either I or II follows.
D. If neither I nor II follows.
E. If both I and II follow.

Direction (Q56-Q60): Answer the questions based on the information given below.

Six persons joined the ABC organization in 2017. All are joined on different dates of either the same or different month. Each of them already has some working experience. One of them joins on 18th July. Less than two persons joined before E who has an experience in even number. The number of persons who joined before E is the same as after the one whose experience is 13 years. B, who does not have experience in prime number, joined before the one whose experience is 16 years but after the one whose experience is 5 and 9 years. The one whose experience is 5 years joins before the one whose experience is 9 years who joins on 24th May. D has an experience twice that of E's Experience. The number of persons joining is between the one whose experience is 5 years and B is the same as between the one whose experience is 9 years and D who joins in the organization on 27th September. A join after C but before F. The one who joins on 26th July joined before D but after B. The one whose experience is 10 years joined after the one who

joined the organization on 12th January which is not the joining date of E. B does not join on 15th January. Based on their working experience a foreign company XYZ gives the project with certain

Conditions:

1. The project is given to those people having experience minimum of 3 years after joining the ABC Organization (Calculate their experience on the following date 31st august 2020).
2. The project is given to the persons who joins the organization at first according to the month.

EduTap

About Us

We are a passionate team of experienced professionals who understand the challenges of aspirants preparing for government jobs. Our vision is to "***create a nurturing ecosystem for the aspirants so that they can feel safe, guided, and mentored***."

Our Mission

At EduTap, our mission is to empower students to reach their full potential by providing comprehensive guidance, expert mentorship, and a supportive community. Since our start in 2016, we've grown into a trusted platform for aspirants, delivering exceptional results in government recruitment exams and certifications year after year.

Why Choose Us

Our **mentors walk with you every step of the way,** providing personalized guidance and insightful advice.

Our courses offer a **comprehensive curriculum** that covers all aspects of the exam, from theoretical knowledge to practical application.

We have a **track record of helping students (even if they are not our paid subscribers)** achieve their dreams, with consistently high results in leading government exams.

We help you connect with a **community of like-minded individuals** who share your goals and support your journey.
